

A VERY SPECIAL & IMPORTANT MESSAGE FROM NATIONAL PRESIDENT

(All concerned, please, circulate this message on all your social media accounts)

Dear friends,

Although, “Service Class Party” is a Registered Unrecognized Political Party, hence, like other political parties, we also, should release our manifesto, but, as you know very well that “Service Class Party” has been promoted by the common citizens of India having few & little resources, we cannot aspire to win an election and form a government, either in a State or in the Center. Hence, we think it fit to field our candidates in various elections at each level from Gram Panchayat / Nagar Palica to Lok Sabha, with our “Charter of Demands”, which shall be very logical and fruitful for all of us. The major demands of our “Charter of Demands” for all PSU & PSB staff given hereunder. All of us have to ensure to follow this strategy with full commitment and determination in all coming elections at various levels all over India.

OUR ELECTION STRATEGIES

1. Field maximum candidates in each elections conducted by the Election Commission of India, at various levels in each State, Union Territory and Center.
2. All pensioners and private sector workers must join the party & be ready to come forward and file nomination in each constituency without fail, not to win the elections, but, to raise our voice and demands.

3. If the above in no.2 is not possible in any constituency, field the friends of service class from other professions, capable of contesting elections on their own expenses from those constituencies.
4. Create party's cadre all over India and bring as many people to the party's fold, as you can. All pensioners and workers from private sector must join the party without fail to ensure the fulfillment of our demands, as well as, our victory.
5. Always remember and keep in mind that we can do the above with great success. United we are the best. United we can create miracles & united we can make miracles look like tiny deeds.

With best wishes.
